Golf Club Network exceeds 150 mark with over 100 new client clubs in last 12 months

Telford 2nd February 2010: Golf Club Network, the website solution created by Gemini Network Media has now passed another milestone in its rapid growth, as the 150th club has signed up with the company for a new website.

The fastest growing provider of cost-effective and easy to manage websites has grown their customer base from less than 40 in January 2009 to 150 in February 2010. Golf Club Network (GCN) websites provide a powerful online marketing tool for clubs who want to retain members, attract visitors and boost revenues, and are endorsed by both the English Golf Union and the Golf Union of Wales.

GCN websites include the choice of proven or custom designs, a powerful email marketing tool, secure members' area and a highly acclaimed Content Management System to allow clubs to make changes when they want, rather than be charged by an agency.

Add to this, features like the 19th Hole (a free news and golf features section); an optional fully integrated tee time booking system; and video upload capability - and it's not hard to see why so many clubs have opted for the performance, power and price of a GCN website.

Clubs considering a new website and are attracted to the GCN proposition should convene the marketing committee soon, as all orders placed by 1st April 2010 will secure the 2009 price irrespective of the go live date, which is usually no more than 4-6 weeks from order.
