More clubs go live with Golf Club Network

Telford, 21st July 2010 - Over the last month Golf Club Network has gone from strength to strength by making live new websites for golf clubs covering England, Scotland and Wales.

Developed by Gemini Network Media and endorsed by the English Golf Union and Golf Union of Wales, Golf Club Network is working with clubs throughout the UK to ensure they take full advantage of online marketing opportunities.

Some of the clubs whose new Golf Club Network websites were launched last month include:

- Chevin
- Clober
- Mold
- Rushmore Park
- The Hampshire
- Wrangaton

From initial build to post implementation, all Golf Club Network clients receive unlimited support from our Account Managers, whether it is best practice advice or technical assistance.

In the last month Golf Club Network also held another of its popular free training seminars in Newport, South Wales for existing clients. The Newport seminar was the third in a series of recently launched seminars to ensure that Golf Club Network users get the most out of their marketing activities.

By choosing to work with Golf Club Network, these clubs join an ever-growing portfolio of clubs who have stepped up their marketing by creating a professional online presence to meet the needs of members and visitors alike.

[Golf Club Network](#) offers a range of design styles to meet the needs of any golf club who wish to market their club to the growing number of golfers searching for their next game online, while streamlining member communications with powerful email software.

July promises to be another exciting month for Golf Club Network with even more features being launched.
